

PRECISION BENDING SOLUTION

BENDING AND SOCKETING MACHINE

mptautomation.com

ISO 9001:2015

World Class Socketing Solutions

PRECISELY **PERFECT**

Founded in 1999, Masters Preci Tools is a trusted source for Socketing Solutions in the PVC Industry. As manufacturers, suppliers, and exporters, MPT's customer base extends beyond the shores with a notable presence in the African and Gulf Countries. For PVC Pipe companies who value precision, durability, and flawless functioning, MPT is a name of first recall.

POISED FOR **GROWTH**

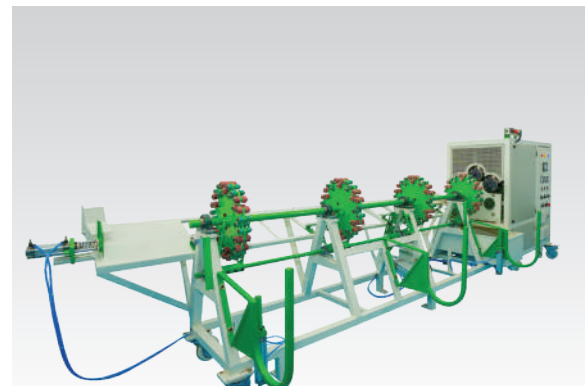

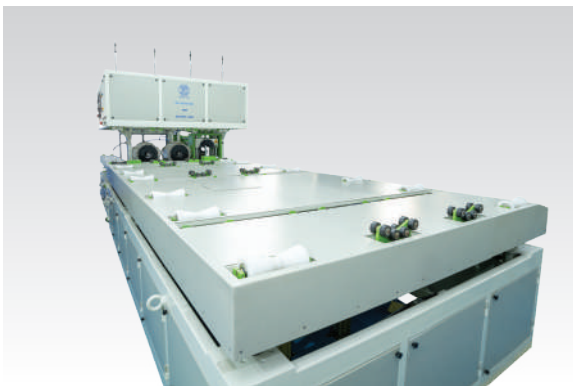

The PVC Pipes Industry has been growing at a phenomenal rate, replacing the conventional pipes market. Being superior in terms of longevity, resistance to weather and exposure, and above all being light-weight and easy to install, PVC Pipes are highly preferred across sectors. This in turn has generated a demand for Socketing Solutions, ensuring MPT's growth in the long-run. Renowned PVC Pipe brands trust MPT for its high quality machinery which prove to be highly cost-effective with minimum maintenance and advanced operations.

PRODUCT PORTFOLIO

MPT's product portfolio includes both Offline and Online Socketing Machines. MPT also provides customized machinery to meet the diverse needs of the industry. MPT Socketing Machines, Special Purpose Machines, and Press Tools are known for their perfect engineering and strong back-end service. What's more, MPT has complete control on the warehousing and packaging fronts, ensuring safe transit and delivery.

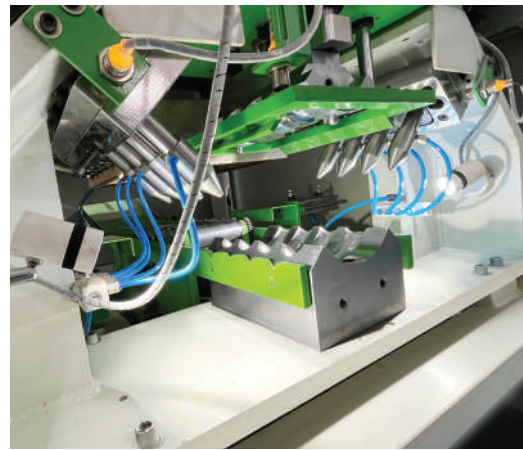

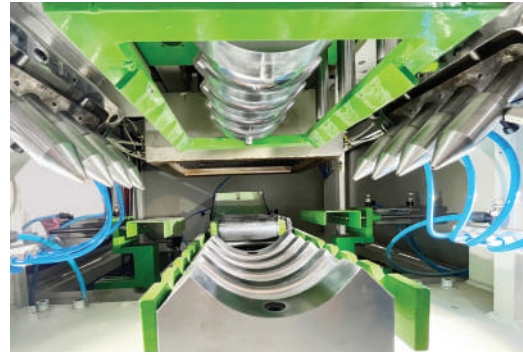

FLAGSHIP PRODUCTS:

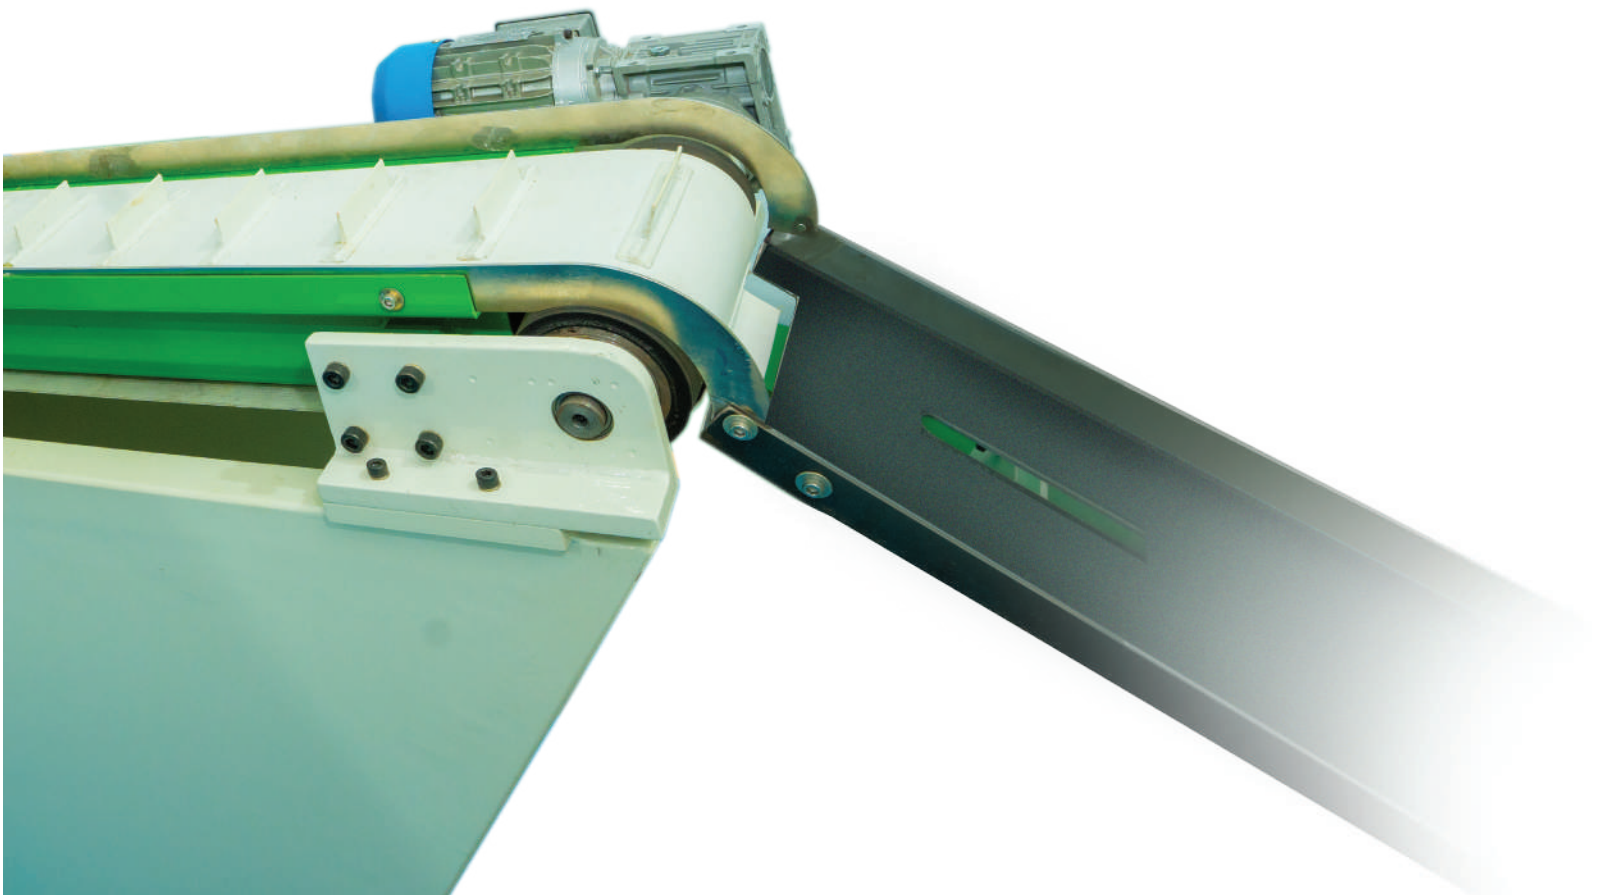

- Bending Machine
- Linear Belling Machine
- Rotary Belling Machine
- Short Coupler Machine
- RRJ Coupler Machine
- Dual Side SWR Machine

MAXIMUM EFFICIENCY, MINIMAL MOTION

Introducing the PVC Pipe Bending and Socketing Machine – a precise blend of cutting-edge technology and user-centric design. Designed for high efficiency and 360° accuracy, this advanced machine offers unparalleled performance and adaptability, enhancing your manufacturing capabilities. MPT's pipe bending machines come in various models to help meet the diverse needs of the market. Expertly designed to align with industry specifications, they ensure profitable operations for PVC pipe manufacturers.

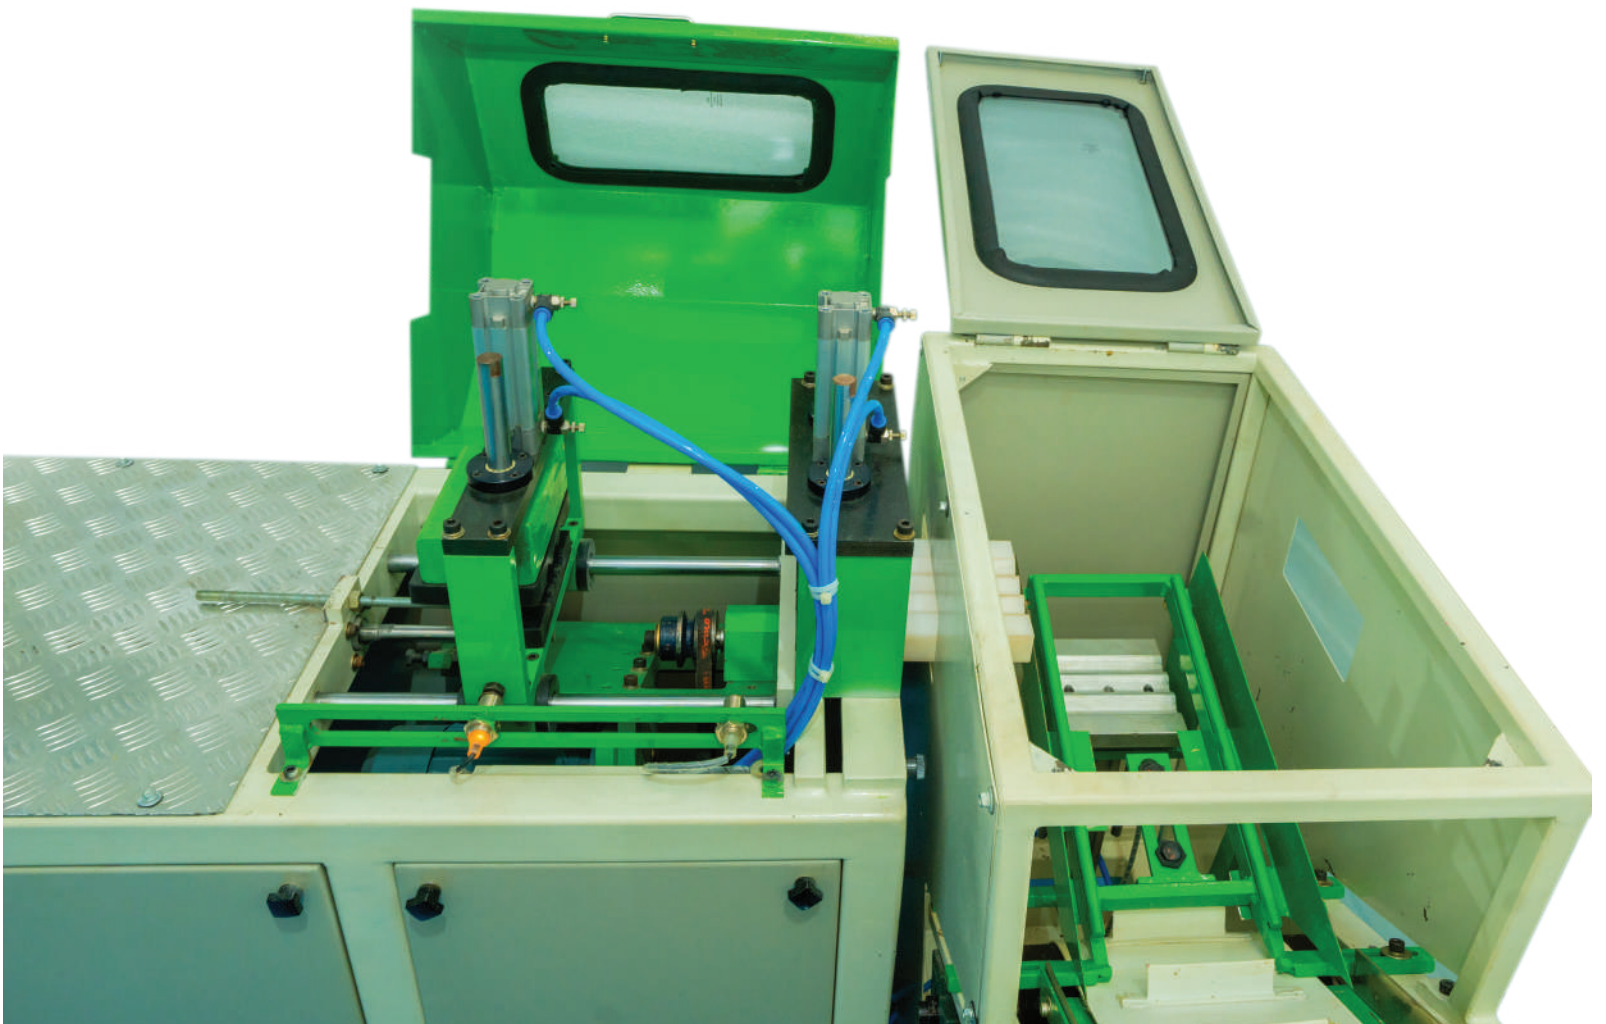

AN INCREASING **INDUSTRY DEMAND**

Engineered for precision, efficiency, and versatility, the Bending and Socketing Machine is a vital addition to modern PVC manufacturing. It meets industry standards with exceptional performance, streamlines production processes, and maximizes time and energy efficiency. By reducing manual intervention, it enhances productivity and supports long-term sustainability, making it an indispensable asset for your operations.

BENDING TO **PERFECTION**

Our machine is equipped with an effectively accurate die system which ensures **flawless bending angles and smooth curves**. The design helps eliminate the need for any additional manual adjustments hence promising exceptional performance. It is engineered to help smoothen operations in sustainability both environmentally and economically, ensuring a professional finish for every bend!

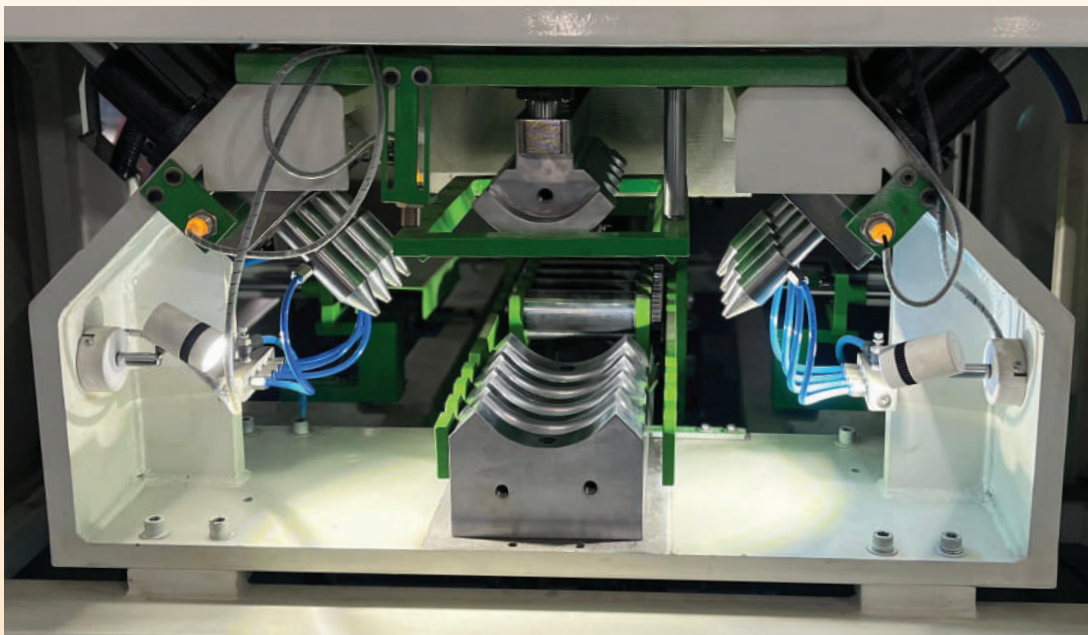

FULLY AUTOMATIC PVC PIPE BENDING AND SOCKETING MACHINE

- **Range (Diameter) : 19 - 50 mm**
- Production Rate : 450 units of 90° bends/ hr
- Applicable for Plain Solvent Sockets

KEY HIGHLIGHTS:

- Advanced heating technologies and techniques
- Precision bending accuracy
- Versatile and Consistent Socketing
- User-friendly adjustment settings
- Automated Pipe Cutting system
- Diverse industrial applications

OUR SERVICES

Advanced Remote Diagnostics

Quick identification and solving of issues without on-site visits, ensuring minimal downtime.

Real-Time Remote Support

Troubleshoot and resolve issues using cutting-edge diagnostic tools, saving time and money.

Seamless Installation & Commissioning

Rapid setup to get your machinery started without delays.

Training Programs

Equipping your team to operate and maintain machinery effectively.

Preventive Maintenance

Scheduled check-ups to maintain peak performance and prevent breakdowns.

On-Site Repairs & Spare Parts Supply

Reliable access to parts and technicians for repairs when needed.

KEY CUSTOMER LIST:

MPT is trusted by 150+ esteemed clients across industries. Delivering excellence and precision all along the way!
